THE LEHI FAIR.

**Evidences of Thrift, Industry and Progress.**

To the Editor of THE HERALD.

Knowing your willingness to publish anything pertaining to our home industries, and also to encourage our young people in all laudable efforts to improve both themselves and their surroundings, I send you the following account of our Fair held on the 10th and 11th instants, under the auspices of the Young Men's and Young Ladies' Mutual Improvement Associations:

As prizes were not awarded, and your reporter does not feel personally equal to pass on the special merits of individual exhibits, I will have to be content with a notice of the various departments, and even some of them may escape me.

As in recognition of the fact that hungry people are hard to please, we were greeted on entering with a fine display of the art of cookery, boiled and roasted, bread, cakes, preserves, jellies, canned fruits, etc., in great variety showing that all are not depending on importation for such supplies.

**HOME-MADE CLOTH, ETC.**

And showing that the hand loom and spinning wheel have not entirely disappeared, there was quite a display of home-spun and home-woven cloth, made up and unmade. Both quality and appearance would compare favorably with factory products. Ladies' underwear, hand wove and hand knit, very artistic in patterns and designs.

**FANCY WORK.**

As usual, the busy fingers of wives and daughters had produced a large display, and tidies, matts, rugs, lace, quilts, crazy and other kinds, flowers of wax, wool, cloth and other materials in every color that Mother Nature has produced, and I believe some others were there in great number. Some fancy articles made from the beautiful silk down of the milk weed, attracted great attention. Also shell work and bead work.

**TAILORING AND DRESSMAKING.**

The displays showed that the latest styles are as possible in Utah as elsewhere.

**LEATHER WORK.**

Harness, boots and shoes, etc. The displays proved that if our home demand is not supplied, the cause is not in the lack of talent to make them.

**JEWELRY.**

Two firms exhibited home made and imported articles. Home-made, of pure gold and silver, and mixed with genuine stones (engraved), showed that even for these articles of luxury home talent could supply all reasonable demands, genuineness and price considered.

**CABINETMAKERS' WORK.**

Cupboards, wardrobes, chairs, tables, etc. The specimens shown represented skill in production, finish, arrangement, etc.

**IRON SMALL WARES.**

Levy & Sons, of Alpine, exhibited specimens of their make of nearly everything used on a farm—a wagon, harness, snaps, buckles, rings, hinges, brake-irons, etc.—certainly a great variety.

**GROWING PLANTS.**

The display of growing plants and cut flowers was good and extensive, especially when we consider the lateness of the season.

**CURIOSITIES, MINERALS, FOSSILS, ETC.**

The collections and exhibits showed that the curious exists among us in goodly numbers, and also that our county can contribute its full share, as well as the great number of mementoes brought from the various nations that have contributed to our population. I must mention a chair made by George Kirkham, of Lehi, and presented to Bishop T. R. Cutler. The chair consists of 124 pieces, fastened together without nail or screw, on the key principle. As a curiosity it is unique, but as a seat it would be murderous.

**OUR HOME ARTISTS**

are attracting great attention. In wood sculpture there was a life-size bust of mother and child, their features so life-like that they were readily recognized by acquaintances. These, along with some doves, the work of Mr. Thomas A. Shely, of American Fork, quite a number of specimens in crayon, nearly life-size likenesses from photographs; free-hand drawings, etc., by Edwin Evans and William Ross and John R. Peterson, of Lehi, and Edward Robinson, Jr., of American Fork, must be seen to be appreciated; also some photographic views by E. Evans; also ladies' work in painting of plaques, trays, etc.

**AGRICULTURAL.**

As usual, the fertility of our soil and growing properties of our climate, were demonstrated by mammoth specimens of potatoes, carrots, beets, cabbages, squash, onions, etc., as well as a number of varieties of grain. Owing to a late storm of frost and hail last spring, our display of fruits was rather meagre. LIVESTOCK, HORSES, CATTLE, POULTRY, ETC.

The display of stock, horses and cattle, sires and their product, showed a wide departure from the times when sires and dams were turned out on the range, and colts and calves came by chance. But evidently so marked and appreciated is the change that no fears are expressed of a return to the old methods, as all seem in earnest to still labor for improvement.

The notice given for the present fair was short, so that the specimens exhibited were selected from the regular products, no forcing process being possible. The attendance was large, and although the admission was nominal, 10 cents, yet quite a sum was realized, to be used for the purpose of home improvement.

**Ringling Noises**

In the ears, sometimes a roaring, buzzing sound, are caused by catarrh, that exceedingly disagreeable and very common disease. Loss of smell or hearing also result from catarrh. Hood's Sarsaparilla, the great blood purifier, is a peculiarly successful remedy for this disease, which it cures by purifying the blood. If you suffer from catarrh, try Hood's Sarsaparilla, the peculiar medicine.
